**GOOD SERMON**  
Was Discoursed Last Night by  
the Rev. J. L. Sawyer,  
Who Was  
Formerly a Train Dispatcher in  
Paducah—The Sermon  
Well Received.

Rev. Joseph L. Sawyer, who  
preached at the First Presbyterian  
church last night, is well known in  
Paducah, where he resided until a  
few years ago.  
He was formerly a train dispatcher  
for the C. O. & S. W. and married  
Miss Mollie Woolfolk, of the city.  
He will graduate in another year at a  
theological college of Danville, Ky.,  
his sermon last night was heard by  
a large crowd, and was most ex-  
cellent in every respect. His many  
friends will be pleased to learn of his  
bright prospects in the ministry.

**MAY BE MUSTERED OUT.**  
It is the opinion of the Third  
Kentucky Won't Live Long.

It is the opinion of Col. Smith and  
Major George Saffrans, of the Third  
Kentucky regiment, now in camp at  
Lexington, that the regiment will be  
mustered out after the next pay day,  
which is not far off.  
The boys, or a greater part of them,  
will then return home, after a sum-  
mer of hard work, with little glory  
attached.

It is said in several letters from the  
boys, written to friends and relatives  
here, that a number of the Paducah  
boys expect to join the regular army  
or navy, as soon as the troops are  
mustered out.  
The Paducah boys and entire  
Third regiment, would now be at the  
front but for the stupid delay of the  
orders sending them there. As it is,  
they are not certain that they will  
ever see another pay day.

## HOPE WAS ABANDONED

Was the Reason That Manila  
Surrendered to the Ameri-  
cans, so Says Gen.  
Jaudenes.

Catholic Archbishop Says Facts  
Were Misrepresented to Him  
—He Now Knows Church  
Property is Safe.

Scripture-McKee Service.  
New York, Aug. 22.—The World  
today points the following, dated  
Manila, Aug. 21: Gen. Jaudenes  
says, "Manila surrendered because  
hope had been abandoned. Had  
Camara pushed forward we would  
have died defending the city. Ameri-  
cans are generous." Nuncio, arch-  
bishop Manila, says: "I have  
favored peace from the beginning.  
Facts have been misrepresented to us.  
We know now that church property  
will be protected and religious rights  
sustained, while we were lead to be-  
lieve that just the opposite would be  
the case."

**GEN. SANGER AT LEXINGTON.**  
Scripture-McKee Service.  
Lexington, Aug. 22.—General  
Sanger, of the Third Division, First  
corps, arrived at 2:30 o'clock this  
morning with his staff.

**MORE SOLDIERS FOR MONTAUK.**

Scripture-McKee Service.  
Key West, Aug. 22.—The Trans-  
port San Marcos leaves today for  
Montauk Point with batteries A, and  
B, First artillery, and Companies  
D, and M., Third Texas infantry. It  
will also carry a hospital corps with  
thirteen wounded.

**HARD LUCK.**  
Mother of a Soldier Evicted  
Because She Could Not  
Pay Rent.

Scripture-McKee Service.  
Wichita, Kansas, Aug. 22.—Mrs.  
J. M. Morris couldn't pay her rent  
and has been evicted. Her son is  
with ten. Merritt in the Philippines  
and had nine hundred dollars in the  
bank for his mother. The bank  
failed and left his mother penniless.

**ROOSEVELT FOR GOVERNOR.**  
The Rough Rider May Try a  
Whirl at Politics.—His Friends  
Believe He Will Be Elected.

Scripture-McKee Service.  
New York, Aug. 22.—It seems  
about settled now that Col. Roosevelt  
will be the republican candidate for  
governor.

He will accept the nomination if it  
is freely offered. His friends claim  
that he will be elected by an over-  
whelming majority.

**PYTHIANS ARRIVING.**  
Five Thousand Now at Indianapo-  
lis and Thousands More  
Expected.

Scripture-McKee Service.  
Indianapolis, Ind., Aug. 22.—  
Five thousand members of the uni-  
form rank of Pythians are already  
here for the biennial encampment.  
Fifty or seventy-five thousand vis-  
itors are expected during the week.

**A SMALL ESTATE.**

Scripture-McKee Service.  
London, Aug. 22.—The personal  
estate of the late Dr. Cornelius  
Hertz, who was charged with impli-  
cation in the Panama canal scandal,  
has been sworn to at only twenty  
pounds.

**THE FOURTH WILL REMAIN.**

Kentucky's Last Regiment Not  
to Leave the Com-  
monwealth.

Washington, Aug. 22.—The  
Fourth Kentucky will remain at Jack-  
sonville, and will not be sent to Jack-  
sonville. The department has de-  
cided to keep the regiment in the  
state. This does not mean that the  
Fourth will be mustered out at once,  
although the determination to keep it  
in Lexington would argue so much.  
Col. Colson is still using every in-  
fluence in his power to have the reg-  
iment retained.

**TO SPEAK AT EDDYVILLE.**

Congressman Wheeler Goes up to  
Lyon County.

Congressman C. K. Wheeler left  
this morning at 7:45 for Eddyville,  
where he spoke today. It is under-  
stood that Mr. Reeves, his opponent,  
will not speak there.

## TWO KINDS OF STORIES

Come From the Gold Region of  
the Frozen North—Starv-  
ation Told of a Copper  
River Camp.

While Rich Finds Are Reported  
From Atlas Lake—Some Fifty  
Lucky Prospectors Are Re-  
turning Home.

Scripture-McKee Service.  
Seattle, Wash., Aug. 22.—Ac-  
cording to G. A. Saunders, who has  
just returned from Copper River, the  
long expected starvation period at  
Valdez, Alaska, has begun. The miners  
in the interior of the Copper River  
country have adopted resolutions  
denying the sensational reports of  
big gold discoveries there.

**THIS IS DIFFERENT.**

Scripture-McKee Service.  
Victoria, B. C., Aug. 22.—Fifty  
men from Dawson bringing a quarter  
of a million of dollars in dust and  
nuggets arrived last night. They  
bring encouraging reports from Atlas  
Lake in northern British Columbia.  
The claims there average four dollars  
to pan.

partment Established.

charge of all matters of transporta-  
tion by rail and water.

Charles Sigbee advanced three num-  
bers in the list of captains for extra-  
ordinary heroism.

**A FLYING MACHINE.**

Scripture-McKee Service.  
Hagerstown, Md., Aug. 22.—Dr.  
Charles Zimmerman, of Frederick,  
this states, has invented a flying  
machine, which he claims to be a  
success. The machine looks like a  
big kite.

**PREPARING FOR WAR.**

England Getting Ready for  
Anything That May  
Happen.

Scripture-McKee Service.  
San Francisco, Cal., Aug. 22.—  
Advices received here state that En-  
gland is about to purchase all the pri-  
vate property in the village of Esqui-  
mault where is located the British  
naval station of its Pacific American  
possessions. For many months past  
hundreds of men have been employed  
on the fortifications. The English  
government is preparing to make Es-  
quimault a second Gibraltar and is  
evidently preparing for a possible  
war.

**AMERICANS IN HAVANA**

Are Unmolested as They Now  
Pass Through the Streets.

Scripture-McKee Service.  
Key West, Fla., Aug. 22.—News  
from Havana says that a number of  
Americans have landed safely and  
are allowed to pass along the streets  
unmolested.

**INJUNCTION GRANTED**

John T. Gills Files an Injunction  
Against Gad Coley.

This forenoon an injunction was  
filed by John T. Gills against Gad  
Coley, in the circuit court, restrain-  
ing him from cutting timber on a  
farm which the plaintiff rented to him.  
The suit required immediate action  
and Judge Husbands heard the evi-  
dence and the injunction restraining  
Coley from cutting the timber was  
granted, temporarily.

**LETTER FROM CAPT. DAVIS.**

Dr. J. T. Radcliff is in receipt of  
a letter from Capt. B. B. Davis, of  
Co. K, stating that he thinks the  
Third Regiment will be mustered out  
in a short time, and saying that he  
would like to be a candidate for the  
position of superintendent of con-  
struction of the new school building  
on West Broadway. The position  
has already been filled, Mr. W. F.  
Katterjohn having been elected to  
the place.

Others say their goods are in a  
distinct class to themselves, but  
Stutz's chocolate cream is the best to  
be had.

## CATO IS TO BE HANGED.

The Brutal Murderer of Old  
Man Askeu Must Expiate  
His Crime—Verdict By  
Jury This Morning.

The Date of the Hanging Has Not  
Been Fixed as Yet—Holly,  
an Accomplice, Now  
Serving for Life.

The jury in the case against Will  
Cato, the young man charged with  
the murder of Cornick Askeu, who  
was killed with an ax and tied to a  
stone and sunk in the Tennessee River  
near Star Line Works, this morn-  
ing returned a verdict of guilty of  
murder in the first degree in the  
Eddyville circuit court, and fixed his  
punishment at death.

The date of the execution has not  
yet been fixed by the court but will  
be when the prisoner is sentenced.  
The arguments in the case against  
Will Cato, charged with the murder  
of old man Askeu, the peddler, were  
disputed at Eddyville Saturday night,  
and the case was given to the jury  
with the instruction that the verdict  
would be heard by the court at any  
time the jury decided the case.

Holly, Cato's accessory, is now  
serving a life term at Eddyville for  
the murder. Cato and Holly tell the  
same story, with the exception that  
each claims the other killed the help-  
less peddler, and that the other, at  
the point of a pistol compelled him to  
do it. It was the most cold blooded  
murder that had been committed in  
many years in Lyon county, and all  
that saved both from being hanged  
was the doubt as to which committed  
the deed. The details of the murder  
are most revolting, and display a  
blood thirstiness almost incredible.

## SEVEN LIVES LOST.

A Frightful Rear End Collision  
on a Massachusetts  
Railroad.

In Addition to the Killed Twenty-  
Six Were Injured—Not  
Able to Escape.

Scripture-McKee Service.  
Sharon, Mass., Aug. 22.—A  
frightful rear-end collision occurred  
on the Sharon station of the New  
York, New Haven and Hartford rail-  
road as 7:30 o'clock last night, when  
an express train which was running  
as the second section of a long train  
crashed into the first section com-  
posed of local cars.

As a result six persons were killed  
and twenty-six seriously injured.  
The injured were nearly all removed  
to Boston on a special train, which  
was met by ambulances and sur-  
geons. The rear car of the local  
train was completely demolished and  
a portion of the second car, while  
the engine of the express train was  
crippled.

**CAMP CHICKAMAUGA.**

Scripture-McKee Service.  
Chickamauga, Tenn., Aug. 22.—  
The chief quartermaster of Camp

bids for the transportation of every  
regiment now there to its state cap-  
ital. It evidently means the general  
breaking up of the camp.

**LEFT OPEN.**

The two concealed weapon cases  
were called again this afternoon and  
left open until tomorrow.

## SENSATIONAL CHARGES

Brought By the Philadelphia  
Times in Regard to the  
Santiago Campaign in  
General.

Claims That General Miles Was  
Sidelined By the Suppres-  
sion of Orders, and Miles  
Won the Victory.

Scripture-McKee Service.  
Philadelphia, Pa., Aug. 22.—The  
Times this morning prints some sen-  
sational charges in connection with  
the Santiago campaign and alleges  
that the original intention of the war  
department was that General Miles  
should command the campaign, but  
that he was held back by intrigue  
and by the suppression of orders.  
It also states Shafter's demand for  
the city's surrender with the threat of  
bombardment was made on General  
Miles' order after Shafter had tele-  
graphed that he needed reinforce-  
ments before he could take the town  
and would have to retreat in the  
meantime.

**DEATH OF MRS. MILSTEAD.**

Mrs. J. R. Milstead, wife of the  
well-known traveling man of Chicago,

sister of Messrs. Will and Ed Vancey  
and Mrs. Will Perkins, of the city,  
and came here three months ago, to  
spend the summer. Her husband  
was at her bedside when dissolution  
took place. One child is left to  
mourn the loss of the mother, a boy.  
The arrangements for the funeral  
have not yet been made, but it will  
likely take place Wednesday some-  
time, burial at Oak Grove.

The funeral will be held at the  
house Wednesday afternoon at 3:30  
o'clock, burial at Oak Grove.

pany against John Tinsley, of Lyon  
county, for \$10,000 damages, is set  
for today at Eddyville, and will be  
called in the circuit court.  
The case is a very important one  
and involves the above amount and  
perhaps more. Tinsley is charged  
with having removed the timber from  
6,000 acres of land belonging to the  
company.

The suit was filed several months  
ago, and Hon. John K. Hendricks is  
one of the attorneys for the plaintiffs.

## JOLLY TO THE FRONT

Carries Henderson, Hopkins and  
Webster County Conven-  
tions Saturday.

Now Has More Votes Than Pow-  
ler—Things Getting Hot in the  
Second—Convention Soon.

The Owensboro Messenger says:  
Jolly turned the tables on the Franks  
crowd Saturday by carrying the Re-  
publican county conventions at Hen-  
derson, Hopkins and Webster coun-  
ties by sweeping majorities. It was  
a stunning surprise to the Franks  
people, who thought Fowler would  
win easily, especially in Henderson  
county.

By carrying these counties Jolly  
runs up ahead of Fowler with 67 de-  
legate votes. Fowler had already car-  
ried Christian and Union with 67  
votes. Daviess, Hancock and Mc-  
Lean will hold conventions next  
Saturday, and the district convention  
will be at Henderson on the 29th.  
Daviess has 31 votes and therefore  
will decide the contest. This county  
being the final battlefield unusual  
interest will be felt in the convention  
next Saturday.

**BIG CROWD**

Went to Smithland Yesterday  
morning.

Two hundred and fifty or more  
people left on the Dick Fowler yes-  
terday morning from Paducah and  
Metropolis for Smithland, Echo  
Springs and Golconda.

There was a large crowd at the  
springs, as usual, and all report a  
most enjoyable time. The boat re-  
turned before dark.

**ILLINOIS TRAGEDY.**

Four Negroes Had to Be Moved  
For Safe Keeping.

Freeman, Balkan, Keeney and  
Williams, the four negroes who shot  
Harvey McDowell Wednesday night,  
were taken to Cairo last night by  
Sheriff Gaunt and posse for safe  
keeping. The Sheriff received a  
warning that a move was on foot at  
Beechwood, where the four negroes  
live, to do them violence. McDowell  
is reported dying.

**CHANGE OF VENUE DENIED**

And This Is the Reason Attorney  
Wilson Wants a New Trial.

The papers in the appeal to the  
court of appeals for a new trial in the  
case of Bob Blanks, under sentence  
of death at Mayfield, was filed in the  
office of the clerk of the court at  
Frankfort Saturday. Attorney A.  
E. Willson, of Louisville, represents  
the condemned man. He prays for a  
new trial because change of venue to  
another county was denied his client,  
and also on account of certain in-  
structions given to the jury. Blanks  
was to have been executed next Fri-  
day.

MONDAY, AUGUST 22, 1898

The firm of Taylor and Lightfoot will soon be ready to receive suggestions as to the "availability" of candidates for the important offices of precinct commissioners. Sunday school teachers are not wanted.

At the coming "peace jubilee" in Paducah at which candidates Reeves and Wheeler will speak. Mr. Wheeler should describe the beauties of the Goebel Election law. It is understood that that bill is intended to be a "barnburner."

So sanguine are the Goebelites of success that they are even now predicting that the Democrats will carry the state at the next election by 50,000 majority. Evidently they know that the election commissioners will take no chances when counting the votes.

One rumor has it that Ex-Secretary Tracy, of New York, will be on the peace commission and Whitelaw Reid will be minister to England to succeed Minister Hay. Another well authenticated rumor says that Senator McMillan, of Michigan, will be minister to England and that Secretary Alger will retire from the cabinet and try to succeed McMillan in the senate. It might be well if both rumors should prove untrue and ex-President Harrison be sent to England as our minister. The president can find no better man; it would be a most unique honor to the ex-president and a great compliment to England. Let Benjamin Harrison be our next minister to England.

As GREAT as have been the services and as brilliant as has been the record of Secretary Day in the short period that he has been at the head of the state department, it is quite possible that the greatest service he has done for the American people is that he has demonstrated that the ablest men are not the ones necessarily who thrust themselves forward and who first became known as politicians. America is full of "obscure country lawyers," who have in them the making of brilliant statesmen, but whose fine sense of honor is such that they decline to seek prominence through the questionable methods that usually make a politician a "success." Among the ranks of our business men are thousands of unrecognized state men, who, if placed in positions of public trust, would have so thought, but the betterment of their country's interests and who could cope with the shrewdest of the self constituted statesmen from whose number the presidential appointments are taken. It will be to the lasting credit of President McKinley that he had the courage and wisdom to select an "obscure" man, not because he was obscure, but in spite of his obscurity.

**THE GREATEST VICTORY.**  
Those chronic grumblers who are never satisfied and who are bewailing the hard times should read this: For seven months ending with July the excess of exports for the United States over the imports amounts to \$317,000,000. In 1897 the excess was only \$54,000,000, and in 1896 only \$90,000,000. And this wonderful commercial victory has been won in the midst of a foreign war and the exciting causes that lead to the war. As Spain is now humbled before the prowess of American arms, so the whole world will soon lie at the feet of victorious commercial America.

**EXTENT OF THE PHILIPPINES.**  
A good idea of the size and extent of the Philippine Islands, about which so many conflicting statements have been made since the group came into prominence a few months ago, is given by the New York Tribune in the form of a map in which the islands are shown superimposed upon a map of a part of the Atlantic seaboard of the United States, beginning at the north with New York, and extending through South Carolina, the Philippine group and the States drawn to precisely the same scale, so that the comparison is accurate.

The total length of the group, from the northernmost point of Luzon to the southern extremity of Mindanao, is about 950 miles, or fifty miles less than the distance from the northern boundary of New York to the southern point of South Carolina. The Philippines have never been thoroughly surveyed or explored, and

consequently the estimates of the total area of the several hundred islands of the group have differed widely. The most trustworthy calculations fix this total area to be between 114,300 and 115,500 square miles, an extent of territory equal to the combined areas of the States of New York, New Jersey, Pennsylvania and Maryland. The largest of the Philippine Islands, Luzon, upon which Manila is situated, has an area of 40,875 square miles, being thus almost exactly the same size as the State of Virginia, and over 8,000 square miles smaller than New York State. In length Luzon extends for about 475 miles, and would reach from a point slightly north of the northern boundary of New York almost to the mouth of the Potomac River.

Mindanao, the next largest of the islands, has an area of 37,256 square miles. It would require the combined territory of West Virginia and Maryland to equal the island in size. Mindanao extends nearly 300 miles from north to south, or, in comparison with the part of the map upon which it is superimposed, it would reach from the mouth of the Roanoke River, in North Carolina, to Charleston, S. C. Projecting from its western coast, Mindanao has a long, irregular peninsula, which makes the extreme width of the island something over 300 miles.

The two smaller islands of Mindoro and Panay, upon the latter of which is the port of Iloilo, are each over 4,000 square miles in area. Together they equal in size New Jersey. Samar Island, southeast of Luzon, covers 7,000 square miles. There are estimated to be about 1,200 islands in the Philippine group, though any accurate statement is impossible. Probably not more than one third of these are inhabited. It is as difficult to obtain correct statistics regarding the population of the Philippines as it is to get a definite statement of their area, because a careful census has never been taken. Various writers estimate the present population at from eight to ten millions.

### RINGLING BROTHERS.

Will Visit Our Neighbor, Mayfield, Next Month With Their Show.  
But Will Give Paducah the "Go-by" for Past Grievances—Money Kept Home.

Ringling Bros. circus is headed this way, but it will not stop in Paducah. It will visit Mayfield next month on the 8th and then jump to Metropolis. A year or two ago when the circus was here, and was arrested by the county authorities for some irregularity in procuring license, the managers declared they would come to Paducah no more. And their action in jumping by Paducah this time would indicate that they meant it.

Ringling Bros. have been to Mayfield before, but rain always interfered with their performances. They say that if they have a pretty day at Mayfield they will give one of the largest performances ever given, because they are "dead stuck on the town."

Their advertising car, No. 1, in charge of Mr. Ringling, one of the proprietors, passed through the city yesterday en route from Hopkinsville to Metropolis. They show at Metropolis the 12th.

### CUSTOM HOUSE INSPECTED.

Inspector Jeardeau Says it is One of the Best Yet Found.

Inspector J. O. Jeardeau, of the government bureau, Washington, D. C., arrived in the city Saturday afternoon and made a complete inspection of the custom house, from top to bottom.

He complimented Custodian Puryear very highly on the condition in which he found things, and said the Paducah government building was one of the cleanest he had found anywhere.

He left on the Sunshine the same evening for other points.

### ORDINANCE IS VALID.

So Judge Sanders Decides in the Saloon Law Recently Enacted By the City Council.

This Was a Very Busy Day in the Police Court—All Kinds of Bad Characters Are Abroad.

There were two more cases in which women were charged with visiting restaurants adjoining saloons in the police court this morning. They were arrested in Phil Stephen's Saturday night, and their names are Helen Brooks and Ellen Doris.

He also said that he supposed the constitutionality of the ordinance would be contested sooner or later by a higher court, and that he would then and there, so far as he was concerned, decide the ordinance constitutional. It came under "police regulations," he said, which gave a city a right to enact any law for the morals or health of the community.

The ordinance as it now stands, he said, cannot be considered by a higher court, as the least penalty prescribed is \$5, and before a case can be appealed from the police court the penalty must be \$25 or more; or the constitutionality, he further added, might be tested before Judge Hubbard if the counsel on the respective sides could induce the court to hear them on the subject. The current court could not be required to hear it at all, however. Judge Sanders said that the position taken by the men who oppose the new saloon law, is that it deprives the defendant of an appeal by prescribing a penalty that is so small that one cannot be taken, thus denying the defendant a constitutional right. If the above position were correct, however all the city ordinances with few exceptions would be unconstitutional. It is likely that an effort will be made to have the circuit court pass on the case, although it seems the general opinion that Judge Sanders' opinion is exactly right.

Will Smith is the name of a young man from the country, who came to the city yesterday to play bully. He was accompanied by another man whom the police failed to get. Both had pistols, one strapped under his arm. It was a 32-calibre, while that held by the unwary Smith was a 44-calibre, and one of the largest the police ever saw. He had a belt on, and was well fixed for trouble when he and his friend went to Mount & Cartright's saloon. Officer Gray was informed of their actions, and went out after them, catching Smith. He seemed to be drinking, and threatened to use the pistol in the saloon several times but did not do it. He failed to plead in the police court this morning and was fined \$25 and given ten days in jail.

Luther Drake and Isaac Willis are two of the negroes arrested on suspicion Saturday afternoon by Officer Gray on information furnished him by a boy from Princeton. They had two pistols in a grip and a complete gambling outfit. Drake carried the grip, and the Court of Appeals has decided that a pistol carried in a grip makes a man just as guilty under the law of carrying concealed weapons as to carry one in a pocket. Drake swore he did not own the pistols, and did not know they were in the grip, that he was asked to hold the grip for Elly, a third negro taken at the same time, but who was subsequently discharged. The case was left open.

Marion Washington, colored, works at Mr. G. W. Crumbach's at Seventh and Madison streets. A colored domestic named Selonia Blackston, who cooks, had an altercation with Washington over a broom, and swore out a warrant against him for abusing her, and shaking his fist in her face. He denied the charge, and the case was left open for additional testimony.

James Morris is charged with having fired two shots at J. M. Troubleson from a revolver at the latter's residence on South Third street, Saturday night. Neither shot took effect.

Troubleson's story to the police is that Morris called at his house on Saturday night and renewed an old quarrel about some story a woman is alleged to have repeated on Morris.

The first shot was fired as soon as Morris got a glimpse of his intended victim, and the next after the latter had opened the door and pushed out a shot gun. The weapon would not go off, because it had no cap on it. Troubleson still had it when he called at police headquarters late in the night.

The accused was arrested by officers Dugan and Block last night, and this morning waived examination and was held in the sum of \$200 to answer.

A case against Margaret Nolan, for using insulting language toward Mary Henderson, was left open on account of the absence of witnesses.

George Custard, colored, was charged with having struck Fannie Custard, his wife, in the head with his fist, and the case was continued.

John Ferrell was fined the usual dollar for being drunk.

B. G. Reed and Tom Clark were charged with engaging in a fight, but the evidence showed that Clark simply struck Reed in the eye, without any provocation, and he was fined \$5 and costs. The case against Reed was dismissed.

### WINE OF CARDUI

MONTHLY SUFFERING.

Thousands of women are troubled at monthly intervals with pains in the head, back, breasts, shoulders, sides, hips and limbs. But they need not suffer.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

For advice, in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. MOZENA LEWIS, of Denham, Texas, writes: "I was troubled at monthly intervals with terrible pains in my head, back, breasts, shoulders, sides, hips and limbs. But have been entirely relieved by Wine of Cardui."

"LET US HAVE PEACE"

"Peace hath her victories no less renowned than war."

To our customers belong the profits this week. We have met the enemy and we've got 'em.

WE HAVE SILENCED THE FORKS of high prices with the bargains we sold to the trade. Our figures, at all times the LOWEST, now knock all the rest in the shade. From our dress goods may yet be selected some choice things in hot weather stuff, on which we won't quote any prices, though others do that for a bluff. These goods you can have as you wish them; yourself make the prices to suit. And when you have spent a few dollars you get a fine picture to boot. We are selling the handsome DRESS SKIRTS ever sold in this end of the state for less than the goods can be bought at, all home made and right up to date. Our LADIES WEAR pleases the fairest, and looks lovely on creatures less fair; their styles, which are ever the rarest, "are charming," fair women declare. And the new folks never forget us, when seeing NICE SHIRTS and FINE SHOES. They know we keep the assortment from which they can easily choose.

Our SHOES are the best and cheapest on top of the earth—or below—and every last pair is as "solid" as the rocks in the Forts of Morris. You may fancy this quite out of reason, but a trial will prove it is true. Just to wind up for the season, FORTY CENTS buys a LOW-QUARTER SHOE.

IN GAITERS and BUTTONS and LACES we can fit every foot to a "T." "Consin George, how dainty your feet look!" "I wear Dorian's shoes—don't you see?"

Rich people are pleased with the beauty of our LINENS, LACE CURTAINS and RUGS, and other folk think it a duty to follow the taste of "big things."

Our trade is increasing and healthy—our prices creating a mass; we hold fast the trade of the wealthy, and "the poor we have always with us."

Our PICTURES—the gems of immortals—in every "sweet home" ought to be, when just for a few dollars' purchase, you're welcome to some of them free.

All will admit the above contains "more truth than poetry."

Everybody come to this winning sale of the season.

GENTLENESS TO ANIMALS.

It Should Be Practiced by All Who Handle Them.

"It is very rarely the case that brute force is needed to subdue and make tractable any domestic animal," said a stock raiser, whose opinion is entitled to a respectful hearing. "I have been in the business for half a century and I know from experience that every time a young animal gets a blow, just so much is taken from its value. My colts and calves never have to be trained. They do not know that they have will of their own because the combative side of their dispositions has never been cultivated. I have a large herd of the dairy cows which I take great pride in. I never permit any scolding or harsh words in their hearing, much less applied to the animals themselves. If I buy a cow, as sometimes do, and she proves intractable, I keep her entirely away from the main herd lest her example should have a deteriorating influence. It is not generally understood that milk is, to a certain extent, formed as it is drawn from the cow. The elements are there, but the action of a gentle hand and the natural impulse of the milk department of the cow leads to the development of milk as it is called for."

**AN UP-TO-DATE DICTIONARY.**  
A Few Definitions Relative to Our War With Spain.

The following definitions are submitted for the purpose of teaching the young idea how to shoot the Spaniards:

America—From the Italian words "Christopher Columbus," meaning "I saw it first, but the other chaplain told me to the telegraph office." The Spanish pronunciation of this word is usually preceded and followed by large exclamations points.

Blanco—A patron saint of type-writing machines; also an authority on mules.

Bombardment—To knock a certain portion of Cuba in the air in waves, and have that certain portion rise up next morning and say to the Spanish minister of marine: "They never touched me!"

Cervera—A juggler with ships; also the man who holds the long-distance record for keeping his ship out of harm's way. See Tennyson, page 214.

Defeat—A Spanish synonym for victory. See Cervantes, page 98: "Havre Don Quixote, and cried: 'Oh, Sancho Panza, see! The windmill crushes the lasterage! It took the breath from me!'"

Fleet—A flock of Spanish ships which runs around the ocean and declines to let its pursuers put salt on its tail feathers.

Mule—A sad-eyed animal of commerce, used principally by the Spaniards for triumphing purposes. See "Blanco's Poems of Passion," page 72: "Oh, mule, in life thou art never met! A victory to denote; In death thy strength goes to swell My daily table doth."

WRITTEN

AT RANDOM.

If there is any indication that a person is contented in this life, it is the fact that he has remained at home nearly all through his career, whether it be eventful or otherwise. And if this be any indication of contentment Uncle Jack Dotsen ought to be a mighty contented man.

"Uncle" Jack and his wife, "Aunt Sallie," have been married sixty-one years, and they have spent their long and useful life at Dukesboro, Graves county. Nineteen children have blessed their union, but the most remarkable thing about them is that "Uncle" Jack has not been four miles from Dukesboro since a few years after the civil war. More exactly, for over twenty-five years he has never been farther away from home than four miles. And the last time he was away from home was when he came to Paducah over 25 years ago. The couple are enjoying good health, and are among the oldest people in their community and respected by all.

The authorities are generally conceded to be right in taking steps to abolish the nefarious custom of females visiting saloons, or the so-called restaurants, connected with them, which is practically the same thing, and equally as demoralizing. In Paducah no lady would dare venture into such places, unless she resides in the building. It would not be considered ladylike here for a woman to go into a saloon, especially for the purpose of drinking, or into the restaurant connected with them. Hence as a rule the only women who frequent such places are disreputable characters—creating a trade that for the purpose of drinking, or into the restaurant connected with them. Window Glass Spectacles.

If we had our choice between giving up everything we have in this world and losing our eyesight, I'm sure we'd give up everything else and keep our eyes. Trouble is, we never think of these things until we've brought face to face with them. We all know people who make a practice of buying "window-glass" spectacles because they think it's economy, not knowing they are doing their eyes a great injury until too late. There is just as much difference in spectacle lenses as there is between a glass dish that can be bought for ten cents and cut glass that would cost ten dollars. Have your eyes tested with Dr. J. H. HARRIS' wonderful instruments, and get a pair of his celebrated crown stone glasses, and you will see as you have never seen before.

## MUNICIPAL MATTERS.

Officers Adkins and Leecher have both been off of the night force on account of illness for a few nights.

An ordinance is to be introduced at the next council meeting prescribing a penalty for representatives of one local house going in and getting customers from some other house. This form of "diversion" has been the past prevalent, especially on Second street.

May Clumfoot, three other females, with more avoidous than brains, and a small boy, were sent to Danville, Tenn., Saturday on the steamer Tennessee. The first named is the creature who was arrested in a Court street saloon Friday night under the new ordinance, and while the females were all more or less "green" in many respects, their familiarity with wicked ways was something awful.

There is a handsome new cabinet in Mayor Lang's office at the city hall, where it was placed Saturday. It is of oak, and is the handiwork of Mr. Milt Ingram, the well known contractor. It contains a drawer, properly labelled, for the chairman of every committee of the council.

Yesterday morning early all the garbage and decaying vegetables were collected and hauled away from the market house before the average citizen was up. The improvement was one duly appreciated, especially by the residents of "Wall street."

Anderson Miller, the well-known ex-constable, was to the city today for the first time in several weeks. He has been ill at his home near Maxon's Mills for the past three months of fever, and is just able to be out. He was warmly welcomed by his many friends here.

Mayor Lang is in receipt of a communication from the League of American Municipalities, congratulating Paducah for being the only Kentucky city represented in the national congress at Detroit, which the mayor recently attended. The League is very anxious to have Paducah become a member, and a resolution will doubtless be introduced at the next meeting of the council to have Paducah become a member.

The interest on the old city bonds, just refunded, will cease on the 25th inst., and by that time, it is likely that all of them will be paid off. The \$45,000 which to do this arrived a day or two ago, and is at the bank. The new bonds are in the hands of the syndicate which refunded them.

Ella Jones was warranted this morning on a warrant charging her with striking another woman.  
Belle Edwards, for a similar offense, was warranted, the plaintiff being Ellen Cousin.

Chief Prichard, of Evansville, was in the city Saturday night en route home from Memphis, and saw Luther Drake, one of the negroes charged in the police court this morning with carrying concealed a pistol. He recognized Drake, and Drake recognized him, and the chief was of the opinion that the negro was wanted in Evansville. He left promising to notify Marshal Collins by telegraph when he reached home, whether the darkey is wanted in Evansville or not.

A prominent railroader said today: "The farmers have the largest wheat crop they have had since republicanism was destroyed in 1854, and best prices prevail. They also have fine prospects for a tobacco crop with good prices. Certainly prosperity smiles down upon the G. O. P., and every act of McKinleyism. The farmers say they have been able to cultivate double the acreage of tobacco on account of scarcity of worms."

**PACKING COTTON.**  
New Cylindrical Bales Result in Greater Work of Klamet.

The new method of cotton packing—loosely compact cylindrical bales taking the place of the ordinary form—will, it is thought, become in time a general adoption. It has been demonstrated by repeated showings that cotton can be put up in cylindrical bales in so dense a form as to render it a practical impossibility to burn it if the surface can be scorched but beyond this, through the absence of the needed oxygen, fire will not penetrate. Under the ordinary system of packing, notwithstanding the bales are compressed, sufficient oxygen is still retained in and through them to give vitality to a fire. Thus a spark from a cigar, a match, or a smoldering lamp will upon a bale of

## FIRST DREDGE INVENTED.

Two Yoke of Oxen Used in Operating the Apparatus.

Mr. William F. J. Boardman, of this city, has in his possession letters patent issued by the United States July 31, 1892. They bear the autographs of two presidents, Thomas Jefferson and James Madison. At the time of the issue Mr. Jefferson was president and Mr. Madison was the secretary of state. Levi Lincoln was the attorney-general of the United States. The patent was issued to John Greenleaf, a citizen of Massachusetts, and the document has been in the Greenleaf family most of the time since 1802. The wife of Mr. Boardman belonged to this Massachusetts family and the letters patent came to Mr. Boardman through her intervention.

The patent was issued on what was called by the inventor a dock-scraper, or machine for cleaning out docks. It was the first notion of the present dredge used in cleaning out the beds of rivers and harbors. The machine was a large rake and hoe combined, weighing about "1,100-weight." The construction included an oak plank 8 feet long, 13 inches wide and 6 inches thick. Across the plank on the front side and at right angles with it were 18 iron bars, 14 inches square and 25 inches long, which were let into the plank by grooves at equal distances and bolted. These bars projected 7 inches below the plank and were pointed and sharpened at the lower end, the device in this shape forming a rake. The same bars projected 5 inches above the upper edge of the plank, and a strip of iron 8 feet long, 5 inches wide and 1 inch thick was fixed in contact with the upper edge of the plank and secured by a bolt through each of the bars. This strip of iron was feather-edged, and when the machine was invented, a hoe on a large scale was formed. The shank or handle of the machine was made of four iron bars, which at a distance of four feet were welded together. The whole length of the shank from the scraper was 8 feet.

The power used in dragging this apparatus was on land and consisted of cattle, wind or water, or any other power that might be utilized. The scraper, when loaded, was dragged to the channel or stream opposite the dock and the mud was carried off by the current. The inventor, with 2 yoke of oxen, 5 men and 3 boys cleared out of a dock at "Newbury Port" 8,000 tons of mud in 17 days. Sometimes he carried out 20 tons of mud at one haul.

The application for the patent was made at Newburyport March 2, 1802. The witnesses to the signature of Mr. Greenleaf were Charles Jackson and Samuel Savett. The letters patent bear the seal of the United States in itself one of the most interesting of devices. These letters patent are among the oldest in the United States. Mr. Boardman, who is an enthusiastic collector, has one of the most valuable collections of curios to be found in New England.—Hartford Times.
